

## Cox Industries, Inc. Commitment to SFI Practices and Procedures

Cox Industries recognizes the benefits and the need for forestry certifications. In recognition of this we have partnered with S.F.I. to offer products from well-managed forests and backed by a rigorous, third-party certification audit.

We are committed to the standards and practices as set forth by the SFI. We have developed the process and procedures that are in line with those required by the Sustainable Forestry Initiative.

Respectfully,  
Cox Industries, Inc.
